DRINKING WATER TESTING

Drinking Water Testing Lab in India

**We believe in a world where
every single person has access
to clean and safe water**

Clean water changes absolutely everything.

A drinking water testing lab India is a crucial element of a healthy community.

Health

Access to food

Local economy
growth

Education

663 MILLION

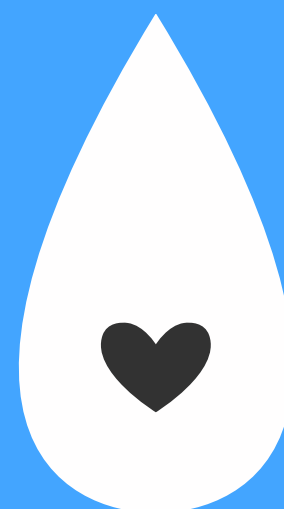

People in the world live without clean water.

**The Health & Family Welfare
Department funds the
establishment of drinking water
testing laboratories in India.**

The government provides the funding to the concerned Zilla Parishads, which in turn distribute the necessary glassware and equipment to the laboratories. The NHIS has a call centre, which is a single point of contact for any consumer complaints.

The Union Jal Shakti Ministry has recently released guidelines on the monitoring of drinking water quality.

We'd love to talk about
all things marketing.
