I Agree

CPVC pipes come in various diameters, and the price often varies with size. Those pipes which have larger diameter generally cost more than smaller ones due to the increased material required.

**Pipe Length:**

The length of CPVC pipes can also influence the price. If the pipes would be longer, then the prices will be higher but they can reduce installation time and provide cost efficiencies in some cases.

**Brand Reputation:**

Established brands with a strong reputation for quality and reliability in market may have slightly higher prices as compared to lesser-known manufacturers.

**Pressure Rating :**

CPVC pipes are available in different pressure ratings to suit specific applications. Pipes with higher pressure ratings are usually more expensive due to their enhanced capabilities.

**Quantity Purchased :**

Bulk purchases often come with discounts, which can significantly impact the overall **CPVC pipe price list**.
